DELAWARE VALLEY COLLEGE
DOYLESTOWN, PENNSYLVANIA

DELAWARE VALLEY COLLEGE

To the Incoming Freshman Class of 1972
Sunday, September 15, 1968
James Work

Members of the Freshman Class, Parents of the Freshmen and Members of the Faculty and Staff, I see I am on the program to extend a welcome to all of you and I want to do that first, then I want to make a few remarks. I know that you freshmen will be loaded up with plenty of information and advice in the next few days around here, so I shall touch on only a few subjects that are of interest, not only to you incoming students, but, also to you parents. There are points in which I feel every parent should take a deep interest, because your sons are going to find that without your support in the right manner they will have a tough time breaking away from their mother's apron strings and going away to college. And very often we find that the mistakes of the boys are due to poor advice that they have gotten from their parents, particularly in respect to several matters upon which I would like to touch.

In the first place, we are here, the College is here, to educate the students, to guide you, to help you in every way that we can. To this, our faculty is dedicated. In many colleges the faculty is dedicated to research work, to writing books, or they're active as political and educational consultants. Around here our faculty is here for one reason, to teach. We have some research projects, but only those in which the student is involved. And we feel that the graduate is the end as far as this institution is concerned, and the building program, the faculty, the administration, and everything that you see around you is simply the means to the end, and that is to turn out a good graduate.

Secondly, we insist on good behavior and good citizenship, and we attain these ends through the cooperation of the student government. So, we expect every student to support the student government. We wish to maintain the best of communications between the faculty and the administration and the student government, and through the student government with the student body.

Now, naturally we require certain academic standards. You only have four years here. We assume that you came here for an education and these four years are going to pass only too quickly. So, we hope that you take advantage of every day and every week and every month in these four years.

And the next point in which you parents are interested is that we, at the College subscribe to the philosophy of *in loco parentis*. In other words, the College, within our ability and within our limitations, takes the part of the parents while your boy is away from home. Many colleges, and few right near us, I am sure you read the papers last week about one of our biggest universities in Philadelphia, have departed from this philosophy entirely. And they feel that a boy comes into this college, or any other college at the age of 18, fully capable of handling all of life's problems. They take no responsibility for his behaviour or for his actions outside of the classroom. We feel that we should take that responsibility. This is a very old fashioned viewpoint. But, many of the things which we do around here, and which we insist upon, are probably considered old fashioned by what is known as the new left or the liberals in education. I believe that one of the things that you parents want to know, and that I always wanted to know as a parent, is where is my child? Where is he tonight? And today there are too many parents who do not know where their children are, and who care less. While the boys are here we expect them to conform to all of our rules. We expect to know where they are most of the time, and we expect you parents to help us in this program.

Now, there are certain rules and regulations, several that I want to mention here, that you folks, and particularly you freshmen, may not take too seriously, even though they are in the College catalog and in the student handbook. Here, unlike some colleges, we insist that the rules set forth in the handbook be carried out. There is no drinking allowed on the campus. There is no liquor allowed on the campus, or any of our property. There are no narcotics allowed. Now this may seem strange for me to have to say that to you folks, but these two things are allowed in some colleges. Here they are not. And the quickest way for a boy to get a one way ticket out of this college, is for him to be caught intoxicated. To date we have not found any of the boys with narcotics. We don't believe that any of them have used narcotics, but this is getting to be a big problem and we want it clearly understood. Although I made this same statement last year at this time, there were four freshmen to whom we had to say good-bye because they thought it was smart to get drunk, to come back on the campus drunk. Now only four out of about 260 was a very good record. This year we hope we won't have any. And I'll tell you the number one cause of poor citizenship and resultant troubles with a student around here, or any other college, is liquor. This is a positive statement to make, but it is the truth, and you boys, you freshmen, should know it. And I believe that that is about the only source of trouble that we have around here. In most cases when boys get in trouble we can trace it back to the fact that they probably went up town and took a couple of drinks, particularly if they are freshmen and are inexperienced in this sort of thing.

These sound like an awful lot of don'ts and a very negative talk, but understand that we have plenty of athletic, social and professional activities here to take the free time of the student and to allow him to have all the pleasure on earth without making a fool out of himself. We won't tolerate, not for one second, hippies, yippies, or those long haired specimens who try to tear down rather than build up, around here on this campus. You look around, particularly when you see our upper classmen come back, and you'll see just what we mean. We don't want any of that ilk around here at all.

And with the above philosophies, which have been carried out in the past and will be carried out in the future, there's no need for me to discuss demonstrations or vandalism, or arson, such as you have read about in the papers, or seen on T.V., on other campuses. There are really only a relatively few campuses on which this occurs. I feel, and I think we all feel, that the press overplays it. Nevertheless, it does occur. But we're just not that kind of folks. We don't have the kind of people on our faculty who would even think of inspiring such actions among the students. And you may not know it, but if you look behind a great deal of the trouble on these troubled college campuses you will find a few, and more than a few in some cases, members of the faculty behind the demonstrations. The little uproar last Friday in Philadelphia at one of our colleges involving the Marine Corps was fomented and inspired by four faculty members. We don't have that kind of men around here, and we don't have that kind of students.

Now, finally, if there are any of you freshmen who, after you are here for a day, or a week, or a month, feel that you cannot accept the philosophies and the programs which we have outlined to you, and which Mr. Fulcoy and Dr. Turner will outline to you, we will do everything we can to get you placed in a college where you may have the liberties and the privileges which you want, and without which you feel you are stifled, and we will help you in every way to get out of here. We want a boy to be able to express himself within what we consider the limits of decency and propriety. We will be glad to kiss you good-bye if you don't want to do this.

Now in the past, and this is a true story, we had a professor here who when he was introduced to the freshmen class said, "As I look at you fellows, three out of four of you won't be here on graduation day four years from now." He is no longer here, this man, and such a philosophy is foreign to everything that we try to do around this college. I hope every one of you will be here in 1972 to graduate. We'll do all we can to help you.

Thank you.

THE CHANGE IN THE ANATOMY OF DELAWARE VALLEY COLLEGE

CHANGE: an alteration, mutation, diversification, variation, modification, substitution, deviation, diversion, turn, break, transformation, alternative, metamorphosis, conversion, revolution, inversion, reversal, displacement, transference, to grow, mature, mellow, recast, remodel, revamp, upset and disturb.

Change is synonymous with these terms and others. It may mean good, it may mean bad. Some people may never change. Other people change with the day. Some places change, others remain stationary. Is change always right? Has Delaware Valley changed? Have changes been made along the right lines? Is there place for more change? Can the institution change and still retain its values?

Delaware Valley has changed. We have witnessed growth and improvement in many areas. Four years of change have passed and we have been an integral part of this era of Delaware Valley College history. What have we seen? What will be the future?

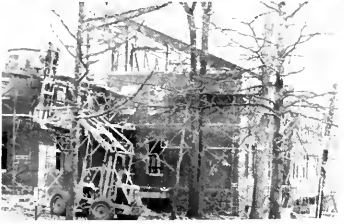

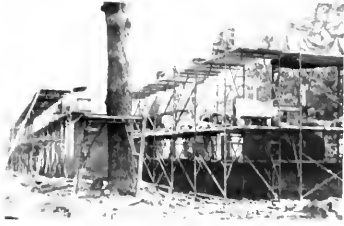

"The art of awareness is the art of learning how to awaken to the eternal miracle of life with limitless possibilities."

THE SKELETON: the framework, the outline, the physical plant, the structure. For four years we have viewed this skeleton of buildings, walks, trees, shrubs and ground. We have seen bare ground be changed into cement block and roof. We have walked through antiquated buildings and seen them remodeled into pleasant modern facilities. We have grown in physical size!

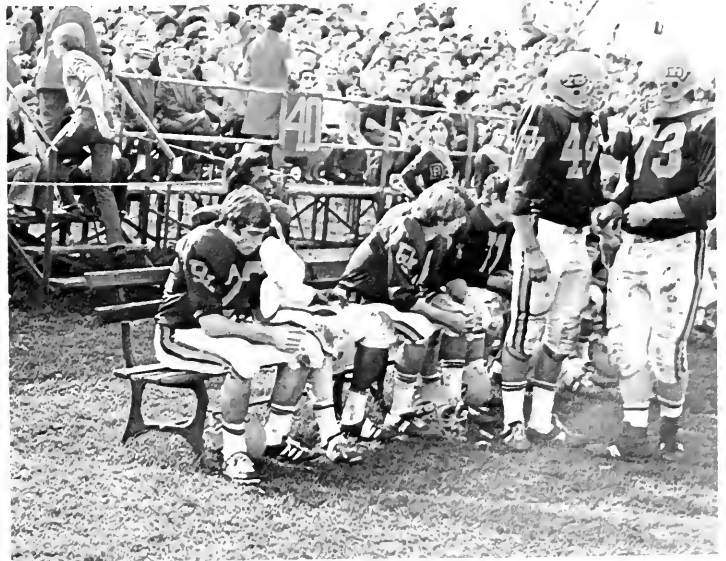

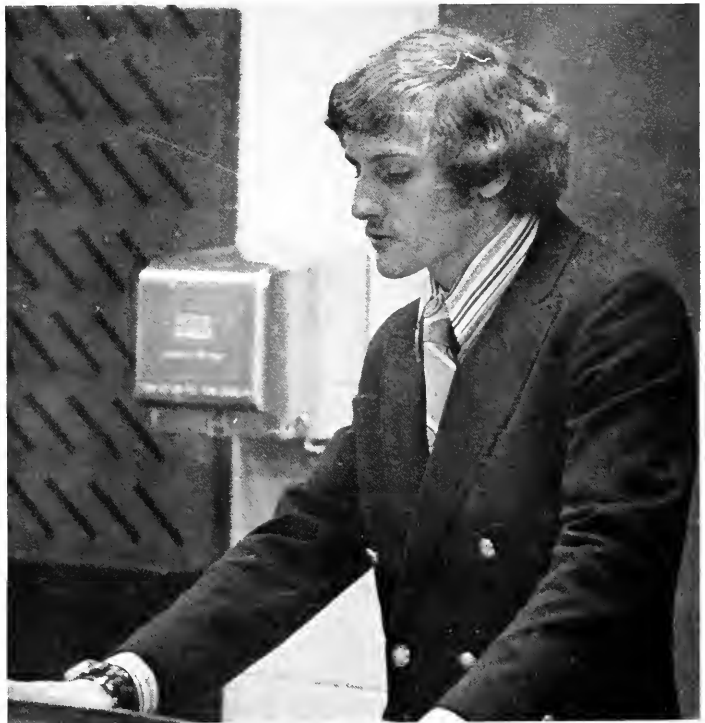

THE HEART: the substance, the nature, the soul, the life, the pulse. Without the heart we have no need of the skeleton. The heart is the students, the teachers, the faculty, the staff and the administration. They give life to the buildings, they carry on the events, they make the school. The people that make the heart are life. Many moods, many types, all kinds, all different, one in the same.

THE SKIN: the covering, the outward appearance. As the school exists, as the students live, they show themselves. We create, we exhibit, we travel, we invite, we purchase, we produce. We are a vital part of the community!

THE DAILY INTELLIGENCER

MONDAY, DECEMBER 13, 1971

5 Aggies Named MAC All-Stars

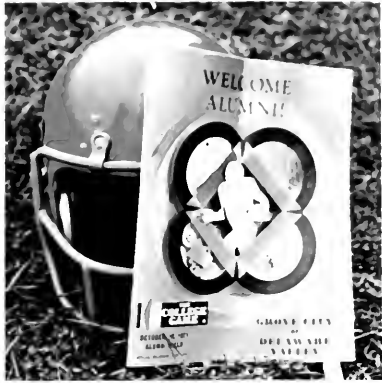

THE SPIRIT: the essence, the disposition, the mood, the enthusiasm, the activity. Spirit keeps us going. We are bound together by spirit. With spirit we meet new friends, we find excitement, joy, frustration and disappointment. Apathy ruins spirit. Spirit is necessary to continue, to hold a head up high, to laugh and cry with a friend, to reach a goal.

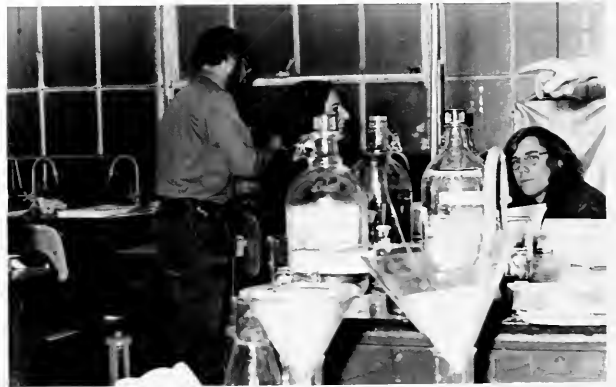

THE MIND: the thought, the motivation, the reason, the purpose, the intention, the opinion. Why are we here? Where are we going? What do we want? In our minds, we make decisions. We see something, we interpret, we go along, avoid, we refuse, we agree. The mind grows in college. That is the purpose of college. Our minds make changes, we change, we change our surroundings.

Ecology minded

Ecology?

The empirical mind

Drive for peace

Drugs, a way out?

Style

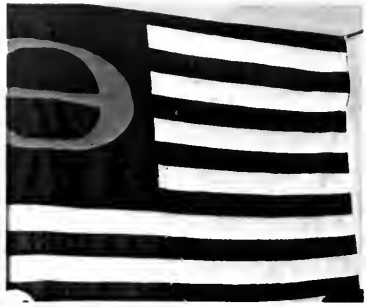

Boredom

"long haired specimens"

Enrichment

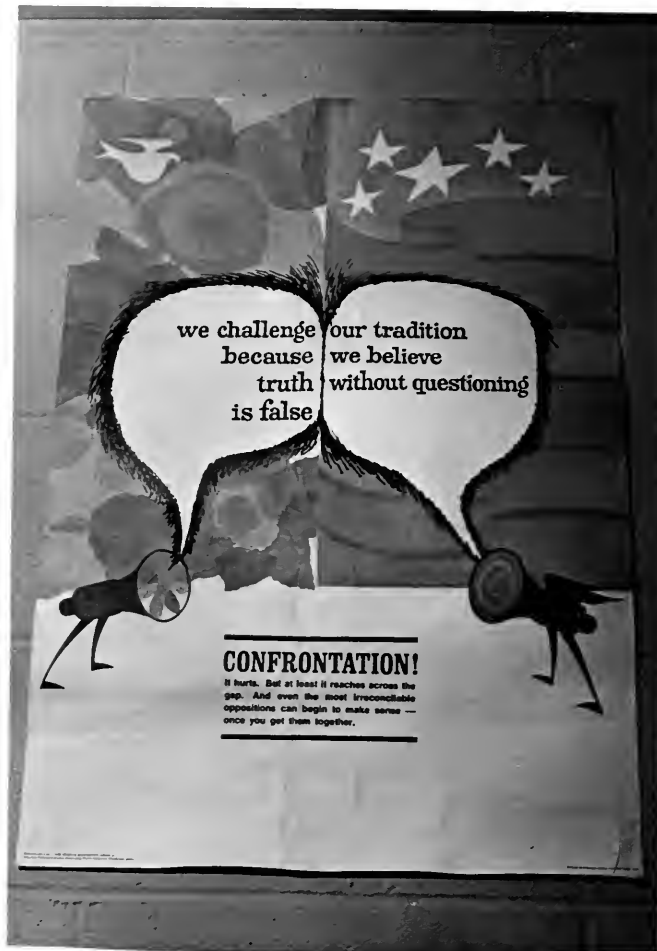

Following rules

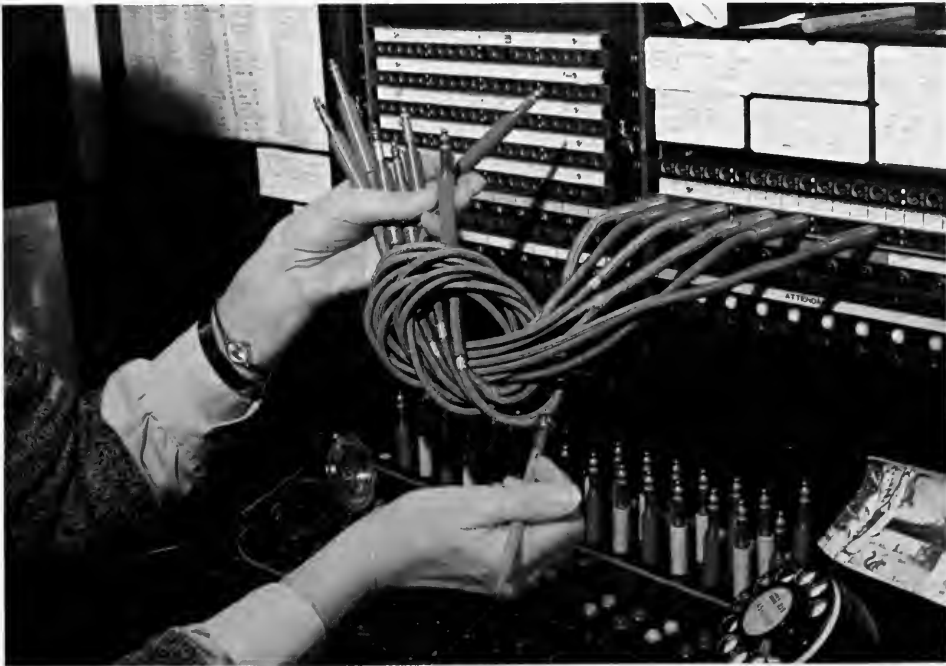

Group decisions

If the college doesn't change, where can it go?

WHAT NEEDS TO BE CHANGED: Why change the present? What's wrong with what we have? We came here to get an education, why worry about the things other than that education? Education is one thing, leisure time is another. Personal life, who says what to do and what not to? We attend college for four years. This is no small part of our lives. When we have problems, where do we go? Does everybody understand each other's views and opinions? We could if we could get to each other and talk openly. Everybody is different, everybody wants something different. You can not please everybody. We live a long and ever changing life. We change with our lives. Everybody, everything changes, if not there is no longer progress!

BOARD OF TRUSTEES

"The need for better communications between the student body and the Board of Trustees was discussed. Presently the only existing correspondence is through the Student Government recommendations. It is hoped that meetings or at least written communication can be established between the Board and Student Government." excerpt from Student Government Minutes, February 28, 1972.

STUDENT GOVERNMENT

Let's take out these urinals and give this girl a dorm.

Is this adequate?

“THE FEWER RULES GOVERNING THE STUDENTS’ LIVES, THE BETTER”

QUESTION:

The cut system
Drinking on campus
Meal ticket system
Room inspection

“There is nothing so stupid as educated man, if you get him off the subject he is educated in.” Will Rodgers. Let’s broaden our curriculum and strive for cultural enlightenment.

STUDENT OPINION SURVEY

Present Open Door hours are:

Monday through Thursday, from 7:00 P. M. to 12:00 P. M. Saturdays and
 days from 12:00 Noon to 12:00 Midnight.

Proposed extension would include:

Monday through Thursday, from 7:00 P. M. to 10:00 P.M.
 doors would remain open.

	YES	NO
Do you approve of an Open Door Policy?	72%	28%
Would you consider the presence of women in the dormitories during the above hours an invasion of your privacy?	5%	95%
Would it interfere with your ability to study?	6%	94%
If your roommate had a female guest and you did not, would you object?	3%	97%
Would you approve the present Open Door Policy plus the inclusion of weekday hours from 7:00 P.M. to 10:00 P.M.?	74%	26%
Do you approve of women visitation hours in the dormitories?	81%	19%
Would you approve a Closed Door Policy?	77%	23%
Would you approve a 24 Hour Closed Door Policy?	72%	28%

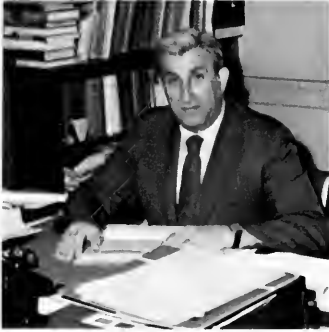

77 % approve Closed Door Policy

So, let's take the book out of the door

“Success is getting what you want; happiness is wanting what you get.” Dave Gardner.

“New opinions are always suspected and usually opposed, without any reason but because they are not already common.” John Loche (1632-1704)

DEDICATION

We dedicate the 1972 Cornucopia to a warm and devoted leader at Delaware Valley College, Dr. Joshua Feldstein. Not only is he an administrator but also maintains a dual role as a teacher. By doing this he is associated with faculty as fellow workers while having direct contact with the students as well.

Through the years as a student, professor and administrator he has served our college well. The theme of this year's yearbook is "The Change in the Anatomy of D.V.C." and Dr. Feldstein has played an integral part in this change. No other person we know is more for the betterment of the "Aggie". Few other people have seen the college change and grow as much as he. Known to many as "Josh", his friendly gestures and warm smiles will always be remembered by the Aggie graduate.

To the Members of the Class of 1972:

I am pleased to have this opportunity to extend my congratulations and best wishes to all of you and to thank you for dedicating the 1972 Yearbook to me. This is a distinct honor and I sincerely appreciate it.

I recall vividly the day I greeted you upon your arrival at our College. It was my privilege to act as your Freshman Adviser and I taught many of you in several courses. You adjusted quickly to college life and matured rapidly. You were extremely fortunate to attend your alma mater during an era of its greatest evolutionary changes and enormous physical expansion, while our country experienced some of its darkest hours! You witnessed the enrollment of Co-eds (Aggiettes) and the construction and completion of three new buildings — Library, Dormitory and Gymnasium. A large academic building will be completed just two months after your graduation. You saw the college curricula updated and the introduction of various options that gave additional depth and breadth to your chosen field of studies. You received an excellent education in your professional field and an appreciation of our cultural heritage. You were instrumental in the implementation of beneficial changes on campus. You are well prepared to face the future and all its uncertainties. You have a profound obligation as Aggies not only to yourselves and your loved ones, but to your alma mater, your country and mankind! Enjoy your work and excel in your endeavors. Exhibit patience, tolerance, understanding and love for human beings and the environment. Continue to grow intellectually and profit from your experiences! Your success will depend primarily on hard work, perseverance, proper attitude and integrity, good planning and management, and above all, your ability to communicate and get along with people! I am confident that each of you will succeed.

The old biblical saying Shalom through its triple meaning expresses my sentiments best — Hello, Goodbye, Peace!

I shall miss you.

Joshua Feldstein

ADMINISTRATION

DELAWARE VALLEY COLLEGE OF SCIENCE AND AGRICULTURE
DOYLESTOWN, PENNSYLVANIA

JAMES WORK
PRESIDENT

To the Members of the Class of 1972

You are about to join the long list of graduates who in the last twenty-two years have lived with us, joined in our sorrows, shared in our successes, had moments of exultation and moments of torment, and have really composed what we know as "the College". From the freshman on campus to the members of the Class of 1950, you form an ever growing group which, by its attitude, its philosophy, its way of life, largely determines the present and the future of your Alma Mater. For our graduate is our only product.

Every good deed you perform, the whole pattern of your life, reflects directly back to the things the College has done for you, and the things you have done for the College.

I know that you accept this responsibility, you are proud to join this group, and that you will so pattern your lives that you cannot only be a witness to the school's teaching but a symbol of real personal dedication and character.

Sincerely,

James Work

Fellow Graduates:

Four years ago, we started a new life of endeavor here at Delaware Valley College aimed at a specific goal. This period of time would most probably be the final step before we are initiated into life and society. The question that we all must ask ourselves now is if whether or not we are ready to take that step. Only you can answer that question!

During our years here we underwent a period of transition. This was a metamorphic change. We were transformed from carefree college kids into mature adults who are ready, willing, and able to take their position in a world of constant change. I ask you now to look back over the four short years that have passed while you attended school and observe the changes that have occurred here and in the world. I would like to remind you all that that great big world around you is yours. You are the future leaders. It is your duty to see that the world changes with the times.

I would now like to take this opportunity to wish you all the very best of luck in whatever road you wish to travel and always remember your college life, the good and the bad.

DAIRY HUSBANDRY

TO THE DAIRY HUSBANDRY CLASS OF 1972:

On May 21, 1972, you will graduate from Delaware Valley College and embark upon what may well prove to be the most challenging journey of your life. You will leave the structured society of education — eight o'clock classes, final examinations, term papers, and all the other demands of a college student — to enter a society in which you alone are responsible for your future.

As you begin your journey, you will quickly find that the road is not always smooth and easy. The journey will require much diligence and determination, but I feel confident that your years as a student at Delaware Valley College have prepared you to meet these demands.

During the past two years, I have come to know and appreciate each of you as an individual. It is, therefore, with both sadness and joy that I say "Good-bye" and wish you much happiness and success as you journey into the future.

BIOLOGY

TO THE BIOLOGY GRADUATES OF 1972

As a teacher, and as your advisor, it has been a pleasure and a privilege to have worked with you during the past four years. During this period, I have watched you grow to become mature, responsible, and thinking individuals. I believe that you have gained much from your association with Delaware Valley College, and the College, in turn, has benefited from your association with it.

Our society has a great need for individuals such as yourselves. It is my hope and wish for you that you will now use the knowledge that you have gained to teach and to assist all of those with whom you come into contact to help them to learn and to grow. May you use your knowledge and ability to nourish the seeds of society, so that a better work may germinate and grow from your effort!

Sincerely,
Dr. Ellery W. French

BUSINESS ADMINISTRATION

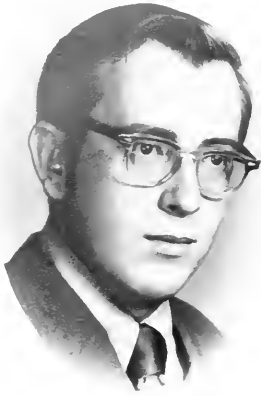

TO THE CLASS OF 1972:

The future opportunities for enlightened business leaders is unlimited. Never has there been a time when the business community has been called upon to solve such pressing problems as pollution, urban restoration, world-wide competition, human relations at the work-place, and the new technology. How will you, the class of '72, cope with this situation? We fell you will do well! You have been well-educated, given a fine background, and equipped to meet the challenge of the seventies and beyond. Don't be discouraged by the pessimists. Use the tools that you have acquired and surmount the obstacles that must be overcome. You are the future of American business. We are sure that we have placed this trust in able hands.

George West

DR. EDWARD GOLDBERG
ASSOCIATE PROFESSOR OF CHEMISTRY

FOOD INDUSTRY

SPEECH TO GRADUATES IN FOOD INDUSTRY:

To encourage individuals on to a greater perfection of their communication with fellow-men is a fitting remark. It may mean the courage to speak, the effort to listen more intently, the sifting and evaluation of opinion, the time to sort hearsay from fact, the determinativeness to resist intimidation, the acceptance of responsibility for the impact of what you say and so on.

Regardless of what has to be done, the effort is worth it as discourse between man offers some of the most fulfilling, interesting, promoting, provocative, and sobering experiences and remembrances of life.

You have left behind with the faculty many of these remembrances — I thank you for them.

Richard Dommel

RICHARD M. DOMMEL
CHAIRMAN OF FOOD INDUSTRY DEPARTMENT
ASSOCIATE PROFESSOR OF FOOD INDUSTRY

MICHAEL J. DETORRE
Knowledge gained cannot be lost or
taken away from you.

DANIEL FIGORE

experience, white rats and boss men.
Thanks to my wife Donna.

MICHAEL TROST

FRANCIS P. TANGEL JR.
Delaware Valley College has enabled
me to expand my scope of thinking and
rationalizing, which is the greatest as-
set a man could obtain.

HORTICULTURE

TO THE CLASS OF 1972:

I am happy and honored to have shared in your struggles, disappointments, victories and this perhaps your greatest achievement.

In seeking your professional goals you have developed your lofty ideals and maintained healthy social attitudes. It is my fervent hope that you continue your high ideals, grow professionally, and share your talents with others. Remember that the greatest personal gratification never comes from selfishness since most individual freedom is gained at the expense of others. Be quick to recognize your individual genetic limitations and strive to develop your best traits. Give your full measure to all tasks and you will be rewarded accordingly.

I wish you the greatest success as you go out to meet the challenges of this world and hope that you will return from time to time and share them with us.

Clinton R. Blackmon
Chairman, Horticulture Department

TEAM RECORD

D.V.C.	Opponent	
21	Juniata	14
7	Moravian	13
20	Albright	15
30	Wilkes	35
28	Grove City	12
13	Upsala	22
14	Susquehanna	7
16	Lycoming	20

SENIORS

(Clockwise From Bottom) 62 Fred Beach, Co-captain, 41 Jasper Meadows, 76 Larry Eisenhart, 83 Bill Brightcliffe, 89 Frank Arcade, 52 Pete Bracchi, 22 Dan Guers, Co-captain.

Despite the season's record at 4-4, the team statistically had a very good year. Five of this years starters were selected to the First team All-M. A. C. They were: co-captain Fred Beach, linebacker; co-captain Dan Guers wide receiver; senior Larry Eisenhart defensive tackle; junior Jim Foote quarterback, and Rich Keown offensive guard. Statistics showed the offense to be Number 1 in the league. The Aggies had the number one passer and punter in Jim Foote, and the first, second, and third pass receivers in Dan Guers, Warren Urban and Rick Konig. Rich Glenn was the second leading rusher in the league.

Dan Guers became the first Maxwell Award winner at Delaware Valley since Ted Cottrell; he was also selected as the Most Valuable Player of the M. A. C. Northern Division. Aiding in his selection to these honors was his record performance this year of 672 yds. in 32 catches.

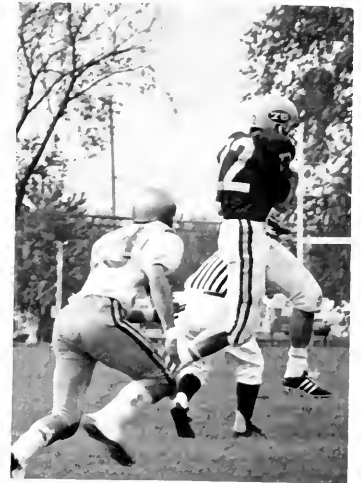

Next years squad will loose 7 seniors to graduation. The seniors are Frank Arcade, Bill Brightcliffe, Pete Bracchi, Larry Eisenhart, Jasper Meadows, and co-captains Fred Beach and Dan Guers. However, there will be 24 returning lettermen for next years campaign. They will be led by co-captains Al Lehman and Jim Foote.

At the annual Fall Sports Banquet, the outstanding player awards were given. The receipts were:

- Outstanding Lineman — Rich Keown '73
- Outstanding Defensive Player — Jim Maloney '74
- Outstanding Defensive Lineman — Larry Eisenhart '72
- Outstanding Offensive Back — Rich Glenn '73
- Russ Trial Award — Fred Beach '72
- James Work, Presidents Award — Dan Guers '72
- Outstanding Football Player — Dan Guers '72

8 Wins 4 Losses — 5th Place MAC Championships

Captain Raymond C. Funkhouser

This years Aggie Harriers experienced their best season in a number of years, when they posted a season record of 8 wins and 4 losses. The 1971 season also saw the team place 5th in the Middle Atlantic Conference College Division Championship Meet at Fairmount Park. This was the highest finish ever of any Aggie Harrier Teams.

Under the direction of Coach Robert 'Doc' Berthold, the team displayed much depth with the majority of the team being underclassmen. This years squad was led by Senior Captain Ray Funkhouser. Other top point getters for the team were Juniors Jim La Baugh and Joe Schiavo, Sophomores Bruce Pratt, Dave Sverduk, and Don Murphy who along with Freshmen Tim Manning often led the Aggies to the finish line. At the end of the season, Ray Funkhouser was voted the Outstanding Harrier Award, and Jim La Baugh was elected to lead the 1972 Harriers.

Loosing only one letterman to graduation, the rest of this years squad will return. With several underclassmen who were very valuable to this year's team to add to the already strong nucleus, the outlook for Cross Country is very bright for next year.

MILES OF AGONY FOR GLORY

They're off and running

Man against man

Harrisers make their entrance

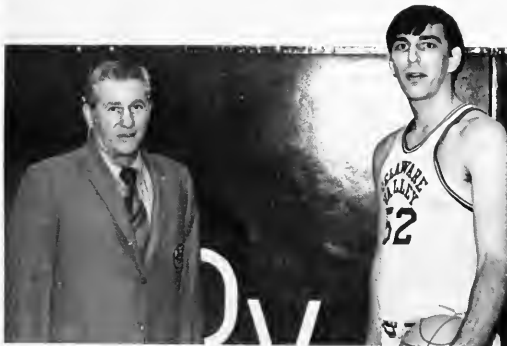

The Aggie 1-2 punch

BASKETBALL

(Clockwise From Left) Coach Frank Wolfgang, Danny Guers, John Leiner, Mike Wells, Steve Shelly, Gerry Morose, Ralph White, Bob Polinsky, Steve Zenko, captain, Jack Harrington, Frank Speziali, Dan Sweeney, Dan Damweber, John Silan, Bob Fredericks, Gary Stoudt, Bill Devlin mgr., Head Coach John Silan.

Coach John Silan with Captain Steve Zenko.

Despite a young and inexperienced team, the Del. Val. Hoopsters under head Coach John Silan were still able to record 6-16 season. With Seniors Ralph White, Frank Speziali, Danny Guers, Junior Bob Polinsky, Sophomore Steve Shelly and Freshman John Silan providing the firepower the Aggies were never taken lightly. Moving into the new Sidney Newman Gymnasium surely contributed to the exemplary spirit and hustle displayed on the hard woods. With only the loss of three seniors and with Captain Steve Zenko returning along with all the rest, the outlook for next year is indeed a bright one.

WRESTLING 1971-1972

Row 1: mgr. Gene Nowak, John Hopper, Joe Thonus, Don Delorme, George Cummins, Michael Ackley, Ron Jennings, Al Vorhauer, mgr. Frank Ali. *Row 2:* Coach Stephenson, Peter LeVan, Tom Lehman, Ray Johnson, Brent Franklin, cap. Larry Eisenhart, Al Bartlebaugh, Jay Witwer, Jeff Piscitelli, James Thorpe, mgr. Steve Howard.

Captain Larry Eisenhart and coach Mark Stephenson.

D. V. C.'s highlights were seen many times in the fine efforts of determined individuals on the team. This year's team will be losing only two seniors, those being John Hopper and Larry Eisenhart. Larry Eisenhart did an outstanding job of returning from a knee operation at Christmas to cap the 190 lb. M. A. C. championship at Elizabethtown College. George Cummins and Joe Thonus both had great seasons with 12-2 records and placing second in the M. A. C.'s. Other place winners in the M. A. C.'s included Ron Jennings third, Brent Franklin and Al Bartlebaugh fourth to give D. V. C.'s team third in the M. A. C. conference. Special thanks to Eugene Nowaks for his three years work as team statistician.

BASEBALL 1972

From Left To Right Row 1. Gary Stoudt, Jerry Biehl, Wayne Remo, James Bucciarelli, Robert Polinsky, Kevin Foster, Tom Debrowski. Row 2. Andrew Timko, Edward Biddle, Paul Heissenbuttel, Gerry Moroz, Charles Roller, David Ferenchick. Row 3. Coach John Silan, James Croke, Donald Olesko, Floyd Alderfer, Ass't Coach John Nice.

Captain Jim Bucciarelli with Coaches John Silan and John Nice.

The Aggie Diamond men under Head Coach John Silan and assistant coach John Nice started the season off with impressive wins over Drew University and Wilkes College. Returning to see plenty of action are Captain Jim Bucciarelli and fellow senior Tom Debrowski. Juniors Bob Polinsky, Dave Ferenchick, Sandy Timko, and Wayne Remo, along with Sophomore Gary Stoudt. With excellent strength in all departments, hope is high for a successful season.

SCHEDULE

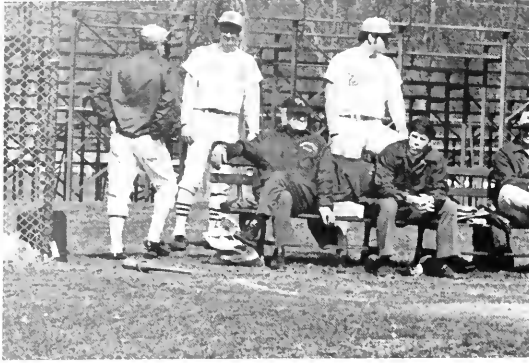

April	5	Drew University
April	6	Wilkes College
April	8	Lycoming College
April	12	Moravian College
April	15	Susquehanna Univ.
April	18	Elizabethtown College
April	20	Ursinus College
April	22	Philadelphia Textile
April	26	Upsala College
May	1	Muhlenberg College
May	4	Lincoln University
May	6	Juniata College

Mound ace Bob Polinsky shows his form.

As do seniors Jim Bucciarelli and Tom Debrowski.

The "kid" scoopes up another.

Sophomore Ed Biddle swings for extra bases.

Wayne Remo attempts to score against Wilkes.

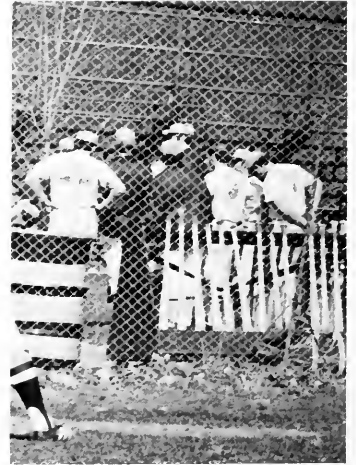

Two more Aggies score.

Gary Stoudt and Dave Ferenchick tee off.

While Bob Polinsky defends.

Aggie battery discusses pre-game strategy.

The pain of extra effort.

Bob checks his swing.

Wilkes takes a third strike.

A close play at third.

TRACK 1972

From Left to Right. Row 1: Coach Craver, Joe Schiavo, Bill Bomberger, Dan Guers, Steve Howard, Fred Beach, Chris Nielson, Ass't. Coach Mitchell. Row 2: Rich Osman, Bill Kepler, John Bernetske, John Yurkanin, John Bray, Dave Alf, Jim LaBaugh, Steve Brown, Larry Dell. Row 3: Mark Pearlswig, Al Raczynski, Tim Manning, Bill Royds, Jim Watkins, Don Murphy, Bill Smith, Tim Paxton, Bruce Pratt.

Coach Craver, Co-captains Dan Guers and Steve Howard and Coach Mitchell.

Chris Nielson

This years track team led by Co-captains Dan Guers and Steve Howard is looking forward to a successful season. The senior members are expected to be among the top point getters. They are Dan Guers, sprinter; Steve Howard, pole vault; Chris Nielson, javelin; Fred Beach, shot put; Bill Bomberger, discus; and Joe Schiavo, middle distance. Underclassmen to watch as point getters are Bruce Pratt, 440 sprints; Tim Manning, long distance; Don Murphy, long distance; and Steve Brown, hurdles.

STUDENT GOVERNMENT

The force of major change on our campus is gaining momentum, the force of the student body is beginning to be felt, the need for a free educational community is being realized. Why has this happened this year? The answer is simple, our college is maturing and our students want more responsibility. I wish to commend this years Student Government for capturing that spirit and relaying it to our administration without making any more rules and regulations.

Sincerely,
David C. Farrar
S. G. President 71-72

Where go I?
Again it's strange,
To find myself out on my own.
A larger world, a quicker pace
of people passing near and far.

Pessimism, despair may conquer men —
But I have found! — I try ... I can!

We do not wish to eulogize the past which has no doubt been one of the greatest spans of four years ever witnessed with regard to the development and metamorphosis of this academic community. But there is a concern of a few to improve the environment of the educational institution. It is a universal fact that the ethics of education are at an all time low. The hypocrisy and lack of humaneness on the part of the present generation of educators provides for a genesis of a process which causes the stripping of student values and destruction of developing individuality. We shall *continue* to resist these forces which wash away our minds for it is only those who *dare* to be controversial that *deserve* to be leaders.
